Experience ⚡

Revolt Digital Dec. 2024 - Present

Product Manager - Project Manager

- Led end-to-end delivery of digital products and data initiatives, ensuring alignment between business goals and technical execution.
- Built and maintained project systems and workflows (roadmaps, tracking, documentation) to improve team visibility and execution efficiency.
- Coordinated cross-functional teams (engineering, data, design), optimizing delivery processes and reducing bottlenecks.
- Translated business requirements into structured workflows and actionable deliverables.
- Improved team delivery efficiency by optimizing workflows and task prioritization and explored automation and AI-assisted workflows to reduce manual operational tasks.

Aerolab Digital Apr. 2022 - Dec. 2024

Digital Project Manager

- Managed multiple digital projects, ensuring consistent delivery through structured workflows and Agile practices.
- Designed and maintained project tracking systems to improve clarity, accountability, and execution speed.
- Optimized internal processes to reduce delivery friction and improve team coordination.
- Acted as the main point of contact for clients, managing expectations and proactively identifying risks.
- Documented processes, project learnings, and delivery frameworks for scalability and reuse.

TA Telecomunicaciones Jan. 2018 - Apr. 2022

Project Manager Assistant

- Supported project operations across IT, IoT, and DevOps initiatives.
- Coordinated workflows, timelines, and stakeholders to ensure smooth execution.
- Assisted in vendor and contract management, improving operational efficiency.
- Contributed to risk analysis and process tracking.
